

D100 Series Projectors

Wireless desktop
projectors for effortless
presentations: easy to
use with low running
costs

WXGA and XGA wireless desktop projectors with 2600-3200 lumens brightness

Make your point effectively with these portable business projectors that deliver crisp, bright presentations. With the added attraction of low running costs and wireless connectivity, they're ideal for smaller businesses and corporates alike.

VPL-DX120/DX126 XGA resolution with 2600 lumens
VPL-DX140/DX146 XGA resolution with 3200 lumens
VPL-DW120/DW126 WXGA resolution with 2600 lumens

Sony D100 Series desktop projectors offer an ideal blend of portability, wireless connectivity, environmentally friendly features and low running costs. Weighing just 2.5kg, they're easy to carry from room to room. Quick to set up and refreshingly simple to use, they're ideal presentation partners for small- to medium-sized meeting spaces and boardrooms.

The DX120/DX126 and DX140/DX146 offer XGA resolution with a maximum colour light output of 2600 and 3200 lumens respectively. The DW120/DW126 offer even greater WXGA resolution for detail-packed presentations with a maximum output of 2600 lumens.

Sony BrightEra™ panel technology assures clear, high contrast pictures in virtually any conditions. Three brightness modes tailor light levels to suit different presentation requirements, from bright daylight to darkened meeting rooms. There's also a choice of Picture Modes to optimise viewing with any source, whether you're projecting videos, PC documents or web sites.

Wireless connectivity comes as standard (DX126, DX146, DW126 models), giving the freedom to present directly from a PC, smartphone or tablet with no wires to slow you down. Alternatively, connect to local office networks or slip in a USB drive (DX126, DX146, DW126) for effortless 'PC-free' presentations.

Running costs are reduced thanks to a wide range of smart energy-saving features. And with extended lamp life up to 7,000 hours, downtime and maintenance costs are minimised further.

Other Features

Up to 7000 hours lamp life for less maintenance and down time

Longer lamp life and reduced maintenance contribute directly to lower lifetime ownership costs. Filter cleaning cycles are synchronised with lamp replacement, cutting scheduled maintenance visits even further.

Save energy at the touch of a button

Easily select power-saving Eco Modes with a single button push; additional Eco settings are easily accessible via intuitive menus.

Picture Mute (Instant Off/On)

Touch a button on the projector remote and the picture's muted instantly – cutting power consumption down to 30% and saving lamp hours. Another touch and the projector's instantly powered back up to resume your presentation. There's also a separate button to mute audio only.

Auto Dimming

Projector brightness is gradually reduced automatically if there's no input signal, or after a pre-set time – cutting power consumption and saving energy bills.

Off and Go

Switch off and unplug at the end of your presentation, then move on to your next meeting while the projector is still cooling down without damage to the lamp.

Direct Power On/Off

There's no need to go through Standby mode when powering up the projector: the projector activates as soon as power is supplied.

Picture Freeze*

Picture Freeze is useful during presentations where users need to look at other material on their PC's screen without the viewing audience being aware. Freeze the current image and users can use their PC independently of the display from the projector.

Auto Input Search

The projector automatically switches to the correct input, simplifying set-up and saving time.

Security that's built in

Your investment's protected with security measures including password protection, panel key lock, mechanical security lock and anti-theft bar.

*Available only on the VPL-DX126, VPL-DX146 and VPL-DW126.

Optional Accessories

LMP-D213

Replacement Projector Lamp

Connector Panels

Rear connector panel for VPL-DX120, VPL-DX140 and VPL-DW120 projectors

Rear connector panel for VPL-DX126, VPL-DX146 and VPL-DW126 projectors

Front Dimensions for the D100 Series projectors

Bottom Dimensions for the D100 Series projectors

All Sony Professional's Desk Top (D100 Series) business projectors sold into the EU, Norway and Switzerland come supplied with a 2 year projector and 1 year lamp/1000 hour lamp cover PrimeSupport pack. This offers unique services and benefits over and above standard warranty:-

2 Year Projector and 1 Year Lamp/1000 Hour PrimeSupport Cover Freephone telephone helpdesk support (00800 7898 7898) in 5 languages. Collection, repair and return anywhere in EU, Norway and Switzerland.

In addition, optional PrimeSupport Plus packs can be purchased which can further enhance the 3 year support to give extra peace of mind:-

- A 1 year extension of the standard 2 year PrimeSupport to give long-term assurance of expert support, technical assistance and repairs for 3 years from purchase date.
- A 3 year extension of the standard 2 year PrimeSupport to give long-term assurance of expert support, technical assistance and repairs for 5 years from purchase date.
- Cover for a lamp failure throughout the 3 year PrimeSupport term for customers who don't want to have any unexpected running costs.

Key Features

Clear, bright images

Easily view clear presentations in any small- to mid-sized meeting room or boardroom. All models offer a choice of three brightness modes to suit any environment, from bright daylight to darkened rooms.

XGA/WXGA resolution for crisply detailed presentations

The native XGA (1024 x 768) 4:3 resolution panel of the DX120/DX126 and DX140/DX146 offers plenty of clear detail: perfect for making presentations direct from a laptop, PC or mobile device. The DW120/DW126 features an even higher resolution WXGA (1280 x 800) 16:10 panel for detail-packed presentations that really stand out.

3LCD BrightEra™ Technology

The efficient 3LCD panel system is enhanced by advanced BrightEra™ technology by Sony. You'll see the difference with impressively bright, high resolution images and increased panel reliability.

Generous throw ratio adjustment

The versatile throw ratio adjustment range (depends on model) accommodates simple setup in most room sizes.

Six Picture Modes to suit any subject

A choice of six picture modes (Dynamic, Standard, Game, Blackboard, Cinema and Presentation) offers optimised picture quality with any source material. Picture modes can be combined with three brightness modes (High, Standard, Low) to suit virtually any presentation requirement.

Vertical Keystone Adjustment

Even if the projector is aligned too high or too low in relation to the screen, keystone adjustment electronically adjusts the projected image for an accurately-proportioned picture with true verticals.

Smart APA (Auto Pixel Alignment)

Phase, Pitch and Shift values are automatically optimised when using the projector with a PC source.

Networked and Wireless Features

Present wirelessly from mobile devices (DX126, DX146, DW126)

The supplied IFU-WLM3 USB Wi-Fi module allows easy cable-free connection with other devices, from PCs to smartphones or tablets. Download the Pixelworks VueMagic Pro app for iOS and make wireless presentations direct from your iPhone, iPod touch or iPad (Android version available late 2013).

Deliver presentation via the network (DX126, DX146, DW126)

It's easy to project presentations from a network-connected PC, either wirelessly or via a LAN cable. Projector functions and status can also be monitored and managed remotely from any PC on the network.

View image files straight from USB (DX126, DX146, DW126)

Slip in a USB drive to effortlessly display photos, images and graphics with no PC needed.
